

# Welcome To... OUTBREAK EDITION

Use the "Fence Symbol" (white action) to fill-in the gaps of a street barricade.

These are your bullets. You start with one (circled below). Use bullets to cancel the Zombie card effect (the Zombies won't advance). When you earn one, circle the next bullet. When you use one, draw an "x" over it, to indicate you've used it

These are the Zombie hoards, when the **Outbreak card** is revealed, the hoards will advance in a direction. If the next space is an opening, the Zombies invade the house. Quarantine the house by drawing a box around it and put a "Z" on it. If the house is barricaded, draw an arrow (like the maroon arrows) to the next open house.

You earn more bullets by advancing your **Real Estate (purple action)**. When you fill in a space with a bullet icon on it, you found some ammunition! Circle the next bullet on the space at the top of your player sheet.
